
Prerequisites: Familiarity stable homotopy theory, category theory and some Chromatic Homotopy theory

Office Hours: The first 30 minutes of class time (3-3:30) will be devoted to office hours.

Homework: There will be problem sets posted with the lecture notes.

Grading: Grades will be based on performance on the problem sets.

Lecture Notes: Course lecture notes and a library of papers we are going through can be found [here](#).

Lecture Schedule: An approximate lecture schedule can be found [here](#)
