

Welcome to HEB 1600!

Any student meeting the prerequisite is welcome to apply. In past years, students from a range of life science concentrations with a few physical scientists, humanists, and social scientists have taken this course, as have HEB first- and second-year graduate students. This mix makes for lively discussion and gives the class a certain "sparkle."

Please note that **this course will be taught virtually on Zoom in Fall 2022.**

[Short Syllabus & Course Information \(revised\)](#) is here:
