

## **Course Information:**

### **Class Sessions**

Tue 10:30-11:45 AM (L130)

Thu 10:30-11:45 AM (L130)

### **Teaching Team**

Faculty: Michela Carlana

[michela\\_carlana@hks.harvard.edu](mailto:michela_carlana@hks.harvard.edu)

Teaching Fellow (TF): Alice Danon

[adanon@g.harvard.edu](mailto:adanon@g.harvard.edu)

Office Hours: Fri 1-2pm (L380)

Faculty Assistant (FA): Edward Walker

[edward\\_walker@hks.harvard.edu](mailto:edward_walker@hks.harvard.edu)

### **Office Hours**

**Schedule office hour [using this link](#).**

**Review Days/Time: Fri 10:30-11:45 AM (L130)**

**Link to Current Syllabus: [SyllabusSUP427-2.docx](#)**

### **Readings**

The readings are articles that are available through a link on the relevant class Page. Below are three books that are important for your review of causal inference, program evaluation, and economics of education.

They have been digitized as part of the HKS Library's Digital Reserves Program. This program allows students to borrow one digital copy of the book for a 3-hour period, similar to physical reserves.

To access the book in HOLLIS, students must scroll down to the "Online Access" section and open the link. Each digital copy placed on reserve can only be checked out to one student at a time. If all digital copies of the book are checked out, the following message will appear: "This item is in use. Access the item to sign up for the waitlist."

- Michael Lovenheim and Sarah E. Turner, Economics of Education. (2017).  
<https://id.lib.harvard.edu/alma/99153867187903941/catalog>
- Angrist, J. and Pischke, J-S., Mastering Metrics, Princeton University Press (2015).  
<https://id.lib.harvard.edu/alma/990144973410203941/catalog>
- Stock and Watson, Introduction to Econometrics, (2014); this is useful to review the prerequisites for this course. <https://id.lib.harvard.edu/alma/990141442670203941/catalog>
