Welcome to Math 161!

Have a look at the [Syllabus](#) to see what the course is about.

Then try the [Natural Numbers Game](#) to get a sense what it means to implement mathematics proofs in Lean!

If you have questions about the course or the Canvas page, please send me an email: pmwood@math.harvard.edu.

---Phil

Update: Do [Assignment 1](#) to get set up with Lean and Github for the course.
